

Training Module 2: Going cashless for bigger impacts

Cancer Council Queensland is transitioning to cashless fundraising. This will ensure your fundraising is easier, safer, more efficient and will have a greater impact.

The safety of Queensland fundraisers is our priority, and therefore all fundraising activities are obliged to be conducted ethically and in line with Queensland legislation.

You may notice the absence of donation boxes from our fundraising kits, and the reduction of cash fundraising functions. To assist us in this transition, please use digital payment methods for your fundraising activities, including your online fundraising page or QR code for simple payments, and automated receipting. These changes will ensure that funds raised will go even further to support Queenslanders impacted by cancer.

If you are unsure how to make your fundraising cashless, please get in touch with Fundraising Support on **1300 65 65 85** or email **fundraising@cancerqld.org.au**

Thank you for supporting Cancer Council Queensland, together we can make a difference to the lives of people living with cancer.
